Tank
Lining
Products!

SPECIAL FEATURES:

- Ideal for Drop-In Containment and Tank Liners
- Chemically Resistant PVC Types
- Developed to Resist High Temperatures
- Available in Thicknesses from .040" up to .375"
- Available in Widths up to 60" Wide
- Custom Roll Sizes and Converting Services are Available Upon Request
- Compliant with California Fire Marshal Code
- UV Stabilized

The Win Plastic Advantage

- No Harmful, DOP Plasticizer
- No Heavy Metal or Odorous Tin Additives

Win Plastics supplies a broad range of flexible PVC lining products. Common applications include drop-in tank and containment liners. Our PVC was developed to withstand temperatures up to 200° F with resistance to nitric, sulfuric, and chromic acid. Types of lining solutions that Win Plastics supplies include:

High Temperature PVC - Specialized PVC with high heat and chemical resistance

Oil Resistant PVC - Polymeric plasticized vinyl with exceptional resistance to hydrocarbons and fuel oils

Potable Water - Certified to NSF Standard 61, approved for use with potable water

Fish Grade - Biocide-free PVC that is used to line ponds and tanks

Fertilizer Grade - For use with fertilizers

Most Tank Lining projects are handled on a case-by-case basis, depending on chemical resistance and temperature requirements. For more info on your application, please contact our Sales Department at 1-866-929-1449.
